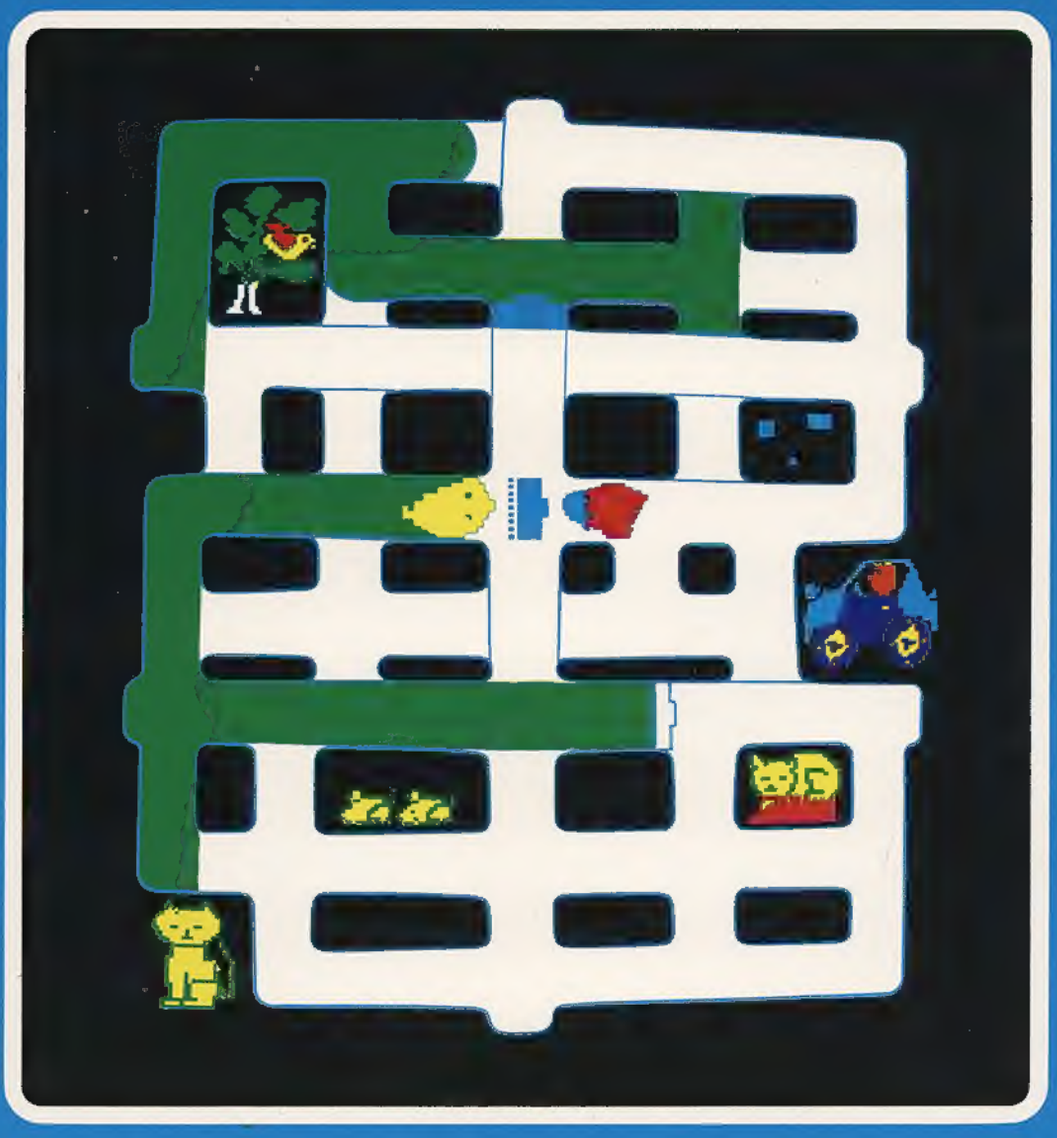
CRUSH ROLLER



Busy painter (Our Hero) versus opponents, and obstacles hampering his task.

The Star of this game paints the passage ways in different colors as the game progresses.
His opponents, 'OJAMAN', try to hamper his work by upsetting the can of paint by bumping against it.
By riding the CRUSH ROLLER, set up in two places on the Screen, Our Hero can crush and paint over the opponents.
By adding variety to the comical characters which appear in the 6 patterns and improvising new sound effects, this game brings laughter by merely seeing and hearing it, plus excitement galore.
